BlueCross BlueShield of Illinois

Drugs Available Under the Medical Benefit from Specialty Pharmacy Partners

Blue Cross and Blue Shield of Illinois contracts with select specialty pharmacies to deliver medications directly to health care providers. When medication is received from these contracted specialty pharmacies, health care providers may bill the administration code and related services only. Below is a list of medicines that may be obtained through contracted specialty pharmacies.

Please note: The listing of any medication is not a guarantee of benefits. Some members' plans may require medications that are approved for self-administration by the U.S. Food and Drug Administration to be covered under the pharmacy benefit. Before these medicines may be considered for coverage, prior authorization or predetermination approval may apply. Benefits may be confirmed by calling the phone number on the member's ID card.

Drugs Available Under the Medical Benefit from Specialty Pharmacy Partners

Drug	Category	ROA*	Vendor	Phone #

Revised July 2026

This list is subject to change without notice. Product names are the property of their respective owners.

Pharmacy benefits and limits are subject to the terms set forth in the member's certificate of coverage. The listing of any particular drug or classification of drugs is not a guarantee of benefits. Members should refer to their certificate of coverage for more details, including benefits, limitations and exclusions. Regardless of benefits, the final decision about any medication is between the member and their health care provider.
The relationship between BCBSIL and the specialty pharmacies is that of independent contractors. Prime Therapeutics LLC is a separate company BCBSIL contracts with to provide pharmacy solutions. BCBSIL, as well as several independent Blue Cross and Blue Shield Plans, has an ownership interest in Prime Therapeutics.
